BUILDING CHATBOT:

The screenshot displays the IBM Watson Assistant interface. At the top, the header shows "IBM Watson Assistant Lite", an "Upgrade" button, and a user profile "Kiki". On the right, there are links for "Learning center", a help icon, and a user icon.

The main content area is divided into two panels. The left panel, titled "Conversation steps", shows a sequence of steps for a chatbot. The first step is "Customer starts with: I want you to recommend me few products of your store". Below this, there are two steps for gender selection: "1 is Male" and "2 is Female". The right panel, titled "Customer starts with:", provides instructions on how to create phrases for the chatbot. It includes a text input field "Enter a phrase" and a list of phrases: "Suggest me few products", "Recommend me few products", "Show me few recommendation of your products", and "I want you to recommend me few products of your store".

At the bottom right, there is a "Preview" button with a play icon.
